PRODUCTS IN EAST

Literature to be Distributed and Products exhibited Throughout the Eastern States.

Sonoma in the swim and will reap benefit of a five year contract with an eastern advertising firm.

M. Leak, with whom the Santa Rosa Chamber of Commerce and North of Bay Counties Association recently closed a five year contract to exhibit a display of North of Bay products and distribute literature throughout the east from advertising cars, is here with his wife arranging to get the exhibit together.

For almost eighteen years Mr. Leak has been operating his advertising cars successfully all over the east and south. He carries a museum of curiosities in one car and a display of California products in another, and the idea is the outgrowth of a plan undertaken a number of years ago to advertise certain California products in the eastern markets. Advance men and advertisements in the newspapers announce the coming of the cars a week or two ahead, a small admission fee is charged and the double attraction offered seldom fails to draw a large number of spectators and interest prospective homeseekers.

Mr. Leak first started out to advertise the Leak Glove Company's products, Sperry's flour, etc., and from that worked around to where he advertises the country itself instead of its manufactured products. He carries a lecturer and several other assistants, and all visitors to the car are presented with literature descriptive of the section whose interest he is promoting. For the next five years he will devote his energies to promoting the interests of the North of Bay Counties, and he hopes to make an especially fine display of the products of this section of the state.

"When I go into a town I advertise and bill the town just exactly as any show does," said Mr. Leak to an interviewer. "I send an advance man throughout the country to all the school houses, for instance. To the children we present some cheap literature and a ticket that will admit the mother free. The result is that rather than lose the use of her free ticket the mother comes and brings her children and husband. Also in giving out these free tickets the advance man aims to get all the statistics of the family possible. This gives us something to work upon when the family comes in."

"In the contract which we have just closed with the Chamber of Commerce we shall have a small piece of cheap literature to give each visitor. Where there is any interest shown, or inquiries made, or a mother's free admission card presented, we give out a fine booklet, take the address of the person making the inquiry, and notify the secretary of the organization affected. It is then the duties of the secretaries notified to follow this 'prospect' up just as any good business man would follow up a business prospect. This is the only way the promotion organization can get adequate value out of the work. I expect to have a call for about 18,000 pieces of the cheaper class of literature each month, and for about 5,000 of the larger booklets during the school time. It is hard to over estimate the value of this work where it is properly followed up by the home secretary."—Press Democrat.

The contract spoken of was signed at the meeting of the North of Bay Counties association at their monthly meeting held in this city and at which time the local Chamber of Commerce was organized and affiliated with the North of Bay Counties Association.

It is apparent that this association are hustlers and get results and that in closing this contract they are now able to place literature before people whom they would be unable to reach otherwise.

Our Chamber of Commerce is already in receipt of letters from parties seeking a desirable location and the more we are known the more inquiries will be received.

Funeral of Mr. Perazzo

The remains of the late G. B. Perazzo, a pioneer resident of Sonoma, were quietly laid to rest in the Catholic Cemetery near this city last Saturday morning. A large gathering of relatives and friends of the deceased gathered in St. Francis' Church, to listen to the solemn services and at the grave, to show their respect to one they had esteemed in life as an honest industrious citizen. Many beautiful floral pieces adorned the grave. May he rest in peace and the consolation of the All-Wise Creator alleviate the sorrow of the bereaved ones in their hour of bereavement.

Must Pay Taxes

The Board of Supervisors, sitting as a Board of Equalizers, ordered the seven banks of the county to appear Wednesday morning with records to show why they should not pay tax on their personal property.

The action was taken at the suggestion of Attorney Theodore Bell, who declares that several million dollars can be added to the assessment rolls in this way. Bell has been appointed assistant district attorney to prosecute the case.—Napa Register.

Earns Much Money

Sacramento, July 10.—Secretary B. B. Deeming, of the State Board of Examiners, declares that the state of California is earning more than a quarter of a million dollars annually through her investments go into the school fund of the state.

Deeming has just returned from an eastern trip, where he purchased many bonds. The bonds are purchased from a permanent fund of \$6,500,000, all which is now earning interest with the exception of \$250,000. Deeming leaves for Los Angeles Monday and while there will bid on \$85,000 worth of School bonds of Pomona, and on Thursday will bid on \$35,000 worth at Bakersfield.

Shorten Season

Supervisor Lyman Green introduced an ordinance at the meeting of the Board of Supervisors on Monday shortening the season for killing deer to one month.

As the state law stands, it is lawful to slay deer any time between July 15 and November 1. Under the ordinance of Supervisor Green the open season in Sonoma county will terminate October 1 instead of one month later.

Most of the sportsmen and deer hunters have desired this law enacted.

Tuesday evening the Masonic Home Band Boys gave a concert in Union Hall. The hall was packed to the doors and a larger crowd greeted them than last year. The selections were much better and their playing superior to last year and showed constant and untiring practice. Following the concert they gave a dance which was much enjoyed by those present. Let us hope that when another year rolls around we will not be forgotten and be again able to hear the boys in our own town.

When this is finished the plot will be seeded and a four foot chicken wire fence will be placed around the same to remain until the grass has a good start and to protect it from pedestrians, dogs, etc.

Mrs. Lutgens' has donated one-half the net proceeds of the sale of ice cream on July 21, for the benefit of the plaza fund of the Women's Club. The forecast advertising virtue is persistent repetition. One can no more make a single effort, however large, serve for a year's publicity, than he could get physical nourishment for a like time for a single dinner.

THE FIRST LETTER A Woman Writes.

THE FIRST LETTER that a sick woman should write or have some one write for her is to Dr. Pierce, of Buffalo, N. Y., asking him if "Favorable Prescription" is suitable for her case, and he will frankly tell her so if he thinks it is. No may have to ask some questions before he can be sure just what the trouble is. If you are suffering from uterine disease, the symptoms of which are headache, backache, sideache, pain in various parts of the body, especially in the pelvic region, bearing-down, inflammation, necrosis, then Dr. Pierce will advise you to use his "Favorable Prescription" for he has had a wonderful experience in the use of this remedy. It is not a patent medicine but it is a veritable prescription that became his "favorite" when he was engaged in private practice forty years ago and found that it cured more than ninety-eight out of every hundred of all such cases that came under his care. The doctor found scores and hundreds of women who were being improperly treated because their troubles were not understood, and he determined to place this remedy that he had so successfully used within reach of the multitudes who were in such sore need of it. He made it efficient, agreeable to taste,

and, best of all, safe for any woman, old or young, to use. It is neither a stimulant nor a narcotic, just a vegetable tonic, and invigorating nerve, composed of native roots of remarkable medicinal virtue in the treatment of this class of diseases, and its record of more than half a million of cures entitles it to full confidence.

The one medicine for the cure of woman's peculiar weaknesses and ailments, the ingredients of which are printed and placed upon every bottle leaving the great Laboratory in Buffalo, N. Y., where it is made, is called Dr. Pierce's Favorite Prescription.

It Stands Alone not only in respect to its ingredients being known, but also as the only specific advertised remedy for woman's diseases which absolutely contains no alcohol.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "Favorable Prescription" is made of such ingredients and after a working formula that has thousands of cures to its credit, placing its merits above criticism.

I suffered with ovarian trouble for many months until I became quite discouraged, as there was scarcely a day when I was not in pain and my health was simply a wreck. I found relief after using two bottles, and a cure in three months—from what I considered was incurable. I am very grateful, and so pleased with my recovery. Life looks different to me now, and I shall always give the credit where it belongs—to Dr. Pierce's Favorite Prescription.

These ORIGINAL Little Liver Pills, first put up by Dr. R. V. Pierce over 40 years ago, have been much imitated but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged stomachs, livers and bowels and their attendant distressful ailments. One or two a laxative three or four a cathartic.

BREVITIES

The announcement at Nevada City recently by the Southern Pacific that it desired permission to erect a power plant on Government forest reservation was the first intimation that the railroad has made public of its intention to equip the mountain system with electricity.

The company is planning to erect a plant costing \$6,000,000, which would give it ample electric current to handle all its trains across the mountains by electric power. The application was made by C. S. Curtis, the engineer in charge of the electric service of the Southern Pacific, to Forest Supervisor Biglow.

The Southern Pacific had a corps of engineers in the field for some time inspecting all the water power sources in the Sierras. The Company expects to have the power plant in operation by the time the mountain cut off is completed.

There is a strong impression in New York and Vermont that President Taft will offer Governor Hughes the first vacancy that occurs in the United States Supreme Court, if it comes in time when Hughes can accept it.

The coroner's jury, which heard the evidence in the case of Miss Caroline Brash, who was murdered by Edward Cunningham, returned a verdict denouncing the pay check system in the most emphatic manner, and holding it responsible for the murder. The jury called upon all legislators and supervisors of counties to enact such legislation for the protection of workingmen as lies within their power and as the exigencies of the situation requires.

Whitlaw Reid, American ambassador to Great Britain, gave an elaborate dinner Friday evening, it being the most important function of the season. King Edward, Queen Alexandra, Princess Victoria and many of the court officers attended the dinner. This makes the second time King Edward has graced the dinners given by Ambassador Reid, but the first at which the queen and princess were in attendance.

John D. Rockefeller is a very generous man. Recently he donated \$10,000,000 to the General Education Board. Another feather in his cap, but leaves him with another black eye as just previous to the donation he raised the price of gasoline one-half cent per gallon. Who made the donation he, or the people?

M. Bleriot, a French aeronaut, July 15, made a straight away flight of 28 miles in 56 minutes in an aeroplane. The flights of the Wright brothers have always been in circle circumscribed in a field. They never attempted a cross country flight, and hence Bleriot's journey is a world's record. The flight was a trial journey.

Western railroads are laying their crossings in solid concrete.

Sixty-five thousand elephants were killed in Africa last year.

Beware of Ointments for Catarrh That Contains Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. M. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting promptly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure and get the genuine. It is taken internally and made in Toledo, Ohio, by F. M. Cheney & Co. Testimonials free. Sold by druggists. 75c per bottle. Take Hall's Family Pills for constipation.

Working for Western Land

"Hand in hand for the Western land," was the catch cry of the hundred Californians who left San Francisco June 12 for a visit to the Alaska-Yukon-Pacific Exposition. This visit demonstrated fully the fact that the entire Pacific Coast region has a community of interest, went hand in hand with a friendship and co-operative spirit, that meant progress for the entire Coast.

Wise Talks by the Office Boy.

Pa backed up against the front gate last evening and when he got out his Ginger Book and tumbled over a few pages he turned to me and said: "Listen to this, sonny." "Alright," I said, "let her bounce." "Burn this in your heart, you are

of use in this world just so far for you are making it happier and better Place a value on yourself and never mark it down. If every seed took root there would be no room for anything but vegetation. If every shot went home this would be a lonesome world. If every worm caught a fish the seas would be depopulated." Then I up and said: "And if every ad I carry to the papers was read, and every shot went home this town would be depopulated because, every body would be dressed up so fine they would want to go away on a trip somewhere. Do you know we are headquarters on suits, hats, neckties, shoes, trunks and suit cases. Well, we aren't all go at reduced prices, too, for instance we sell you a \$2.50 value—suit case for \$1.85.
